## WHY CHOOSE CRYSTAL CABINETS OVER A LOCAL CABINET SHOP?

Many people are under the impression custom, quality cabinets have to come from a local shop.

What if we told you that Crystal Cabinets started as a small local shop, but have grown and expanded over their 70+ years in business?

Today, their knowledge and experience has positioned them as an industry leader in custom cabinetry. Find out how Crystal outperforms local shops in the following features that are very important for your overall satisfaction with your new cabinets:

- Finish quality and resilience
- Customization
- Material Quality
- Design
- Warranty

Your cabinets should be durable in numerous ways. Don't compromise your investment by purchasing cabinetry with substandard materials, construction, attention to detail and finishes.

Crystal Cabinets. . .uncompromised quality, durability, and craftsmanship.

Since 1979, discerning clients rely on Nickels Cabinets in Richmond, British Columbia, to care about the details required for exceptional cabinetwork.

- Distinguishable, skilled workmanship
- Meticulously crafted fine furniture-quality cabinetry
- Tailored to your unique style

## JUST ONE MORE VERY HAPPY CUSTOMER

Michele was intuitive as to what my vision was for my home and the value I received from the service and products she provided was so much more than I expected. She surprised me with innovative ideas that maximize the space in my kitchen and home.

Michele supported me at various showrooms to help make all the critical choices needed for my project. She left no stone unturned to find the perfect items to complete the perfect look in each room. “Never settle.”

I found the quality of the cabinets Michele supplied for my kitchen, pantry, fireplace area, and bathrooms to be of a high standard and affordable. I received 3 other bids from local companies. Each were more expensive and offered less features and

project support. Michele showed precision with jobsite measuring and attention to detail and personally inspected every delivery.

Michele took the stress out of a difficult time for me and ensured my whole-house remodel was a very pleasant and rewarding experience. She directed trades people and kept me on track with every project detail. I can never thank her enough for her expertise and support in making this house a home for me to share with my family and friends.

It was a privilege to work with Michele. I am forever grateful.

# WISDOM IN DESIGN

## WHY NOT DESIGN YOUR HOME TO BETTER SUPPORT YOUR HEALTH?

People are living longer lives, but with less quality due to an abundance of health concerns that are affecting all age groups. Our bodies are continuously exposed to Pathogenic Viruses and Bacteria along with overwhelming numbers of toxins that accumulate. Our immune systems cannot keep on top of these destructive invaders enough to prevent symptoms and disease from developing in most of us.

We can adapt to these increasingly harmful conditions through lifestyle. And our homes are where we can be most successful in creating better health.

But do traditional home designs support our health enough in today's world?

Client's first need to understand what causes disease. And it's often not what they think. Once there is an understanding of what causes disease, then an understanding of the best ways to address those causes is important to learn.

In addition to being an award-winning designer, one of Michele's biggest passions is to support others with their health needs. Michele is credentialed as a Natural Health Consultant, specializing

Improved Kitchen Function for Healthy Eating

Most Effective Water Filtration for Entire Home

Therapeutic Technology for Showering & Bathing

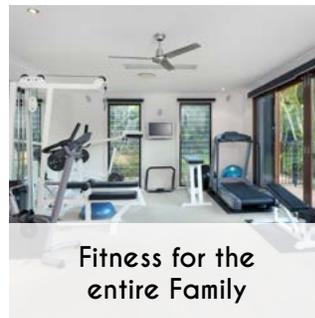

Safe & Effective Detoxification Therapies

Outdoor Living & Sanctuaries

Growing your own food at home

Fitness for the entire Family

Personalized Private Spaces for each Family Member

in Naturopathic Nutrition. She trained with two of the most respected Naturopathic Nutritionists in the U.K. Here's how just one of Michele's clients benefited from Michele's support and expertise:

*...I suddenly became quite ill...with symptoms of constant migraines, nausea, dizziness, etc. confining me to my bed on a daily basis. After many doctor and specialist appointments, MRI, CT scans, and multiple courses of different drugs, these symptoms persisted daily with nothing offering me any relief or comfort. Within one month of meeting Michele, and after 7 months of being ill every single day, I was finally on the mend. I am now healthier than I have ever been before with no sign of my previous symptoms. 100% of the credit goes to Michele for this. I couldn't have done this without her knowledge and expertise, but more so her dedication to helping me wherever she could - a fantastic support!*
